SUMMARY

Computer science graduate, fast learner with a strong work ethic and a passion for solving critical real world problems in full stack development, over the past few years I have been volunteering at Iskcon and helped my family business transition from web to mobile.

SKILLS

- Server Side - Python, Node.js, Express, Flask, Nginx, REST API
- Client Side - HTML, CSS, Javascript, React Js, Flutter, Vanilla Js
- Database – SQL, MySQL, NoSQL, MongoDB, Firebase Firestore
- Other – Linux, Docker, Git, AWS EC2, Problem Solving, Data Structures, Algorithms, Clean code architecture

EDUCATION

K. J. Somaiya College (NAAC Accredited - A, Affiliated to University of Mumbai**)**   **Mumbai**
Bachelor's Degree, Computer Science   **2019 - 2022**

- Secured A+ grade (distinction) and was among top 5 students, earning a CGPA of 9.5/10
- Relevant coursework: Data Structures and Algorithms, Web Services, Database Systems, Software Engineering, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Data Mining, Linux, & Big Data
- Developed a solid foundation in computer science principles, including problem-solving, algorithm design, cybersecurity, ethical hacking and software development methodologies
- Completed capstone projects focused on building a scalable web application using modern technologies, showcasing proficiency in full-stack development
- Participated in coding competitions, attending riidl startup workshops and seminars on emerging technologies and industry trends sharpening problem-solving abilities and critical thinking
- Engaged in team-based projects, fostering collaboration, communication, and project management skills

WORK EXPERIENCE

Mith and Mithson Pvt Ltd   **Mumbai**
Software Developer, Trainee   **2021 - 2022**

- Known for good debugging skills, used to refactor, analyze code with attention to details
- Developed Flutter UI/UX robust android app, ensuring an intuitive & visually appealing user interface
- Built REST API endpoints and implemented a Python Flask gunicorn server for seamless data communication
- Deployed the server on AWS EC2, configuring NGINX as a reverse proxy for optimal performance.

PROJECTS

- **Personal Portfolio Website:** Showcasing all my live projects frontend UI/UX design skills & backend
- **Spotify UI Android App**: Spotify Music player Fronted UI implementation app using flutter and dart
- **Online Code Editor**: Codepen Style online code editor for HTML, CSS, and Javascript hosted on AWS EC2. View source code of all above projects on Github and Live preview on my Portfolio website

CERTIFICATIONS

- Machine Learning | Essential Google Cloud Infrastructure: Foundation | Data Structures | Agile Software Development | Using Python to Access Web Data | Capstone: Retrieving, Processing & Visualizing Data with Python | Programming for Everybody Specialization Course
