- Database – SQL, MySQL, PostgreSQL, NoSQL, MongoDB, Vector Database
- Others – LLM, RAG, MCP, AI Agents, Agentic AI, LlamaIndex, LangChain, Docker, AWS EC2, S3, IAM, CloudWatch

WORK EXPERIENCE

Clover Infotech Pvt Ltd (BFSI Domain – 3 Clients) **Mumbai**
Software Engineer ***Dec 2024 – Present***

- Designed an automated alert system and monitoring dashboard requested by the business team to track expiring NISM certifications, eliminating revenue leakage caused by expired broker certifications.
- Collaborated onsite with the bank's team to migrate the legacy website optimizing page load time and streamlining user journeys through effective coordination with QA and backend developers.
- Facilitated domain migration to achieve seamless transition and near zero downtime during deployment.
- Resolved multiple breaking user journeys across key modules such as Debit Card, Forex, Credit Card, Gold loan renewal, FATCA, Remittance, and Loan on Card.
- Improved system stability and maintainability by identifying and fixing critical integration and workflow issues on production environment and delivering expected outcomes as per the business requirements.
- Coordinated application and content migrations across UAT and Staging environments as part of release management activities while maintaining customer-facing SME web pages using Sitefinity CMS.
- Contributed as an interviewer in various hiring drives (DSA, machine coding rounds - LLD) - 40+ interviews

Nerve Solutions (Fintech Domain - 2 FNO Projects) **Mumbai**
Software Engineer ***July 2023 - Oct 2024***

- Developed and maintained a futures and options trading platform for India's largest finance bank.
- Efficiently collaborated and delivered quality code in 2 different projects simultaneously maintaining clean code.
- Independently Researched, implemented and tested client-side requirements of communication bridge for Flutter and Nodejs improving clients team productivity by 50%, resulting in a streamlined workflow for new feature integration of Clever Tap to get better insights of end-users' actions, demonstrating strong initiative.
- Proactively Adapted, Optimized option chain to reduce app load time achieving 40% increase in overall app performance, Deployed releases to UAT meeting customer design requirements and met tight project deadlines consistently through effective time management, ensuring on-time delivery and client satisfaction.

EDUCATION

K. J. Somaiya College (NAAC Accredited - A, Affiliated to University of Mumbai) **2022**
Bachelors in computer science | 9.52 CGPA | A+ Grade (distinction)

CERTIFICATIONS

Machine Learning | Data Structures | Agile Software Development | Using python to access Data management
Essential Google Cloud Infrastructure: Foundation | Capstone: Retrieving, Processing, and Visualizing Data with Python
